The screenshot displays the 'Bulk SMS' interface of the 'SMS essentiallyprecise' platform. At the top, there is a navigation bar with the company logo and name, a user greeting 'Welcome test, Feb 17, 2013 1:44 PM (GMT+4)', and links for 'Error Codes' and 'Logout'. Below this is a secondary navigation bar with buttons for 'Send SMS', 'View Scheduled SMS', 'SMS Reports', 'Downloads', 'Contact us', and 'My Account'. The main content area is divided into two sections. On the left is a sidebar menu titled 'SMS Messaging' with three options: 'Single SMS', 'Bulk SMS', and 'Customized SMS'. The 'Bulk SMS' option is selected. The main section is titled 'Bulk SMS' and contains a form with the following fields: 'Sender Name*' (a dropdown menu), 'Mobile Numbers*' (a text input field with a file upload icon and a note 'Allowed file type is TXT'), 'Language*' (a dropdown menu set to 'English'), and 'Message*' (a large text area). Below the message field, there is a character count '459 characters left' and a checkbox for 'Schedule this SMS for future delivery'. At the bottom of the form are two buttons: 'Send' and 'Reset'.
